Career Objectives

Dynamic and motivated Full Stack Developer with a keen eye for design and a passion for creating seamless, user-centric digital experiences. Adept at merging creativity with technology, I specialize in both front-end elegance and back-end robustness. My journey includes solo projects that showcase my proficiency in HTML, CSS (including Tailwind CSS and Bootstrap), JavaScript, React.js, Express.js, Node.js, and MongoDB.

Work Experience

SOLO MERN Stack Developer

Automated Affiliate Content (SaaS) - (Amazon Product Scraping, ChatGPT API, WordPress Rest API)

Innovated an automated **Affiliate Marketing Solution** utilizing ChatGPT API, WordPress API, and Amazon product scraping. Redefined the process from link input to article creation, enabling seamless WordPress posting.

MERN Stack Blog (Subscription for Premium Content)

Developed a subscription-based blog system with user authentication, content segregation, and an admin dashboard for streamlined post management.

AdvanceColorHunt (Interactive Palette Visualization on Real Web Page)

Engineered an interactive platform for users to create and preview color palettes, integrating live sample website design for enhanced user experience.

Tools:

- Reactjs, Express, MongoDB, NodeJs, APIs, Axios, Amazon Product Scraping, ChatGPT API, WordPress Rest API, JWT, Passport Authentication, Tailwind CSS, Flowbite UI Library, Git, GitHub.

Freelance WordPress Developer

WordPress Developer (Frontend + Custom Theme Development)

With over 3 years of expertise, I am a highly skilled Frontend and Custom Theme WordPress Developer. My focus includes crafting engaging WordPress websites, from design to theme and plugin implementation. As a results-driven professional, I have consistently surpassed expectations in web development initiatives, showcasing a proven track record of success.

Tools:

- Site speed optimization and manual backups
- Expert in Elementor, Divi, Astra, Yoast SEO, Rank Math
- Custom theme development expertise
- E-commerce, blog, and subscription site creation
- Proficient in site migration and shared hosting
- MERN stack projects using REST APIs

Freelance Graphic Designer

Graphic Designer

Leveraging a keen eye for aesthetics and a deep understanding of brand identity, I delivered high-quality logos that resonated with clients' visions. My commitment to excellence earned positive reviews, contributing to my Fiverr Level One status. Excited to bring my creativity and expertise in logo design to new opportunities.

Tools:

- Graphic Designing (Adobe CS6, CorelDraw X7, Illustrator)

Professional MS Word, Excel, PowerPoint

Office Automation Specialist

Expert in MS Office with a knack for automation. Specialized in document formatting, advanced Excel, and PowerPoint for streamlined processes. Proven track record in data entry, calculations, and creative data visualization.

- Microsoft Office (**Word, Excel, PowerPoint**)
- Graphic Designing (Adobe CS6, CorelDraw X7, Illustrator)
- CorelDraw X7 (**Expert**)
- Web Designing,

Programming Languages and Skills
